

## Custom Cell Culture Media

Lifeline Cell Technology manufactures a wide variety of media and reagents, filtration sterilized, aseptically filled, formulated and manufactured to your specifications:

- Mammalian Cell Culture Media and Supplements
- Insect Cell Media and Supplements
- Plant Cell Media and Supplements
- Molecular Biology Reagents
- Protein Purification Buffers
- Aseptic Custom Liquid Products

We are available for consultation on your formulation development or unique formulation design.

Our new **Manufacturing Facility**, located in Walkersville, MD:

- cGMP Manufacturing Capabilities
- DI Water System
- Class 100 Clean Room

### Filling Capability:

Media and aseptic liquids can be filled into standard 1000 mL, 500 mL, 125 mL, 60 mL and 30 mL Polypropylene, PET and PETG bottles.

For large volume requirements, liquids can be filled into 10 liter, 20 liter, 100 liter, and 200 liter bags. Custom tubing assemblies can be provided for bag formats. Production lot sizes can range from a single bottle to 1000 liters.

### Service and Response Time

Our service is personal. Our response time is fast.
